24HR Commercial Appliance Services London offer 24 hours service and all types of boiler repair and installation issues. Our engineers have experiences and qualifications to work on oil boiler so if you are one of the people who have oil boilers located in your property and it your oil boiler gives you trouble. You can just give us a call at your convenient as we operate 24 hours a day throughout all festive and holiday periods.

We specialise in all types of domestic and industrial oil and solid fuel heating systems. Our Oil Heating Boiler engineers can provide with great service with friendly and professional approach and they are available to answer any questions you may have about our company or our services 24 hours a day 7 days a week throughout all holidays and festive periods.

It is possible to have an oil boiler efficiency of up to 97% - that is, 97% of the oil's thermal energy is converted to heat. In the UK there is a scale rather unimaginatively called SEDBUK: Seasonal Efficiency of Domestic Boilers in the UK, and this defines ranges of boiler efficiency to help you narrow down your options easier. An A-rated boiler is 90% efficiency or greater.

With limited exceptions, all oil-fired boiler installations in the UK need to use a condensing type of boiler. This energy efficient boiler comes in several varieties of drain options:

- Internal stack pipe
- Waste pipe
- External gully or drain
- Rainwater hopper
- Custom-made soak away

Oil boilers can still take different forms, according to the home's plumbing:

- Combination oil boilers
- Regular oil boilers
- System oil boilers
-Combination oil boilers

Regular oil boilers System oil boilers
