---

## **Tiling Tips**

Preparing the surface and making guide rods (gauge sticks) Finding the surface centres and setting out the wall tiles Fixing the battens, applying tile adhesive and installing the first tile Laying the remaining rows of the ceramic tiles Measuring and marking the top, bottom and edge tiles Cutting ceramic tiles with different tools Cutting tiles around pipes Replacing broken tiles

With an almost unlimited choice of patterns, textures and colours to please even the most fastidious tastes, bathroom tiles are the obvious choice for lining your bathroom or shower area. Although some people consider leaving it to the professionals, most bathrooms can be tiled in a weekend, even if you have had no previous tiling experience.
