

At 24HR Commercial Appliance Services, we have gas commercial engineers who can deal with all the large gas, heating appliances such commercial boiler, commercial cooker in the restaurant, commercial grill, commercial oven, etc. All of our domestic and commercial gas / heating / boiler engineers have been recommended by "Time Out" London Magazine and recommended by word of mouths from our existing customers.

They can deal with commercial boilers like all gas combi boilers, oil condensing boilers, gas condensing boilers, vaillant condensing boilers REMEHA Commercial & Domestic boilers , PEERLESS Commercial & Residential , WEIL MCLAIN GAS OIL Commercial & Residential boilers, COLUMBIA Commercial & Industrial Boilers , BUDERUS Commercial & Industrial and some more other makes. They can also repair and maintain domestic boilers for you too.

For your peace of mind, we send the engineers to the up-to-date training courses every so often to upgrade their knowledge on new things so that we can catch up with all the new technologies and changes and this is for YOU, the customer;s benefits. We are confident that this is what makes us different to other engineers from other companies as we know once they all have been through the training they will become more confident and they can deal with difficult situations of complicated jobs. They have been doing long enough to know how to how to install a radiator and how to repair, maintenance, and install central heating, gas condensing boilers, baxi heating, vaillant combi boilers. When we do the service on gas boilers we service them and checked properly

Emergency Commercial & Domestic Wood Burning Stoves repair, maintenance and installation

Care is essential for stoves to enhance safety and efficiency. For a start, consult an expert in repair. It is always advisable to use a brush or a vacuum cleaner to carry out soot accumulated in the stove. All ash is removed and grate as well as the glass window which can be handled using special cleaners. Some of the areas that one can pay attention are the carriion in metal parts which may become loose. Presence of holes can also cause leakage. Flexibility of the vents and doors can also be confirmed as well. Cracking and warping is also another possible area for attention. These areas should be checked to ensure any problem is rectified.

Precautions

Look out for firebricks, fibre cord for fastening doors and windows and heat seal for sealing joints as the main areas for attention. Apply grease to parts that are moving. For corroded areas, wash with grease and then apply spray to avoid corrosion again. Repairing the stove early enough is an effective strategy since it becomes ready for use. Good weather can also allow exterior work on the stove. The vent should also have circulation such that air enters into it. In summary, one needs to have several materials in mind when carrying out repairs. These are sprays, polish cords, cement, fire cleaner and brick stone.

Wood Burning Stove Pizza Oven - Commercial Pizza Oven

Cooking outdoors is the perfect excuse to have a garden party; to entertain family and friends and make the most out the warm summer months. Turning the Murphy Stove into a wood burning oven will keep garden seating areas cosy for you all to gather around, enjoy the heat and relax to the sounds of crackling wood.

The Pizza Oven attachment will cook two average sized pizzas at once in no time at all to offer your guests a rustic garden treat. The fun doesn't have to end at pizzas however, the oven is a great way to bake or roast food so you could cook bread, baked potatoes or even roast chicken.
