Warning – You should always get your gas boiler system checked out regularly (usually yearly)! Symptoms of Natural Gas Leak- Medical complications/symptoms

Exposure to low levels of natural gas is not harmful to your health. However, if a gas leak is severe, the amount of oxygen available for breathing could be dramatically reduced, which can lead to asphyxia. Symptoms of asphyxia include

- Dizziness
 - Fatigue
 - Nausea
 - Headache
 - Irregular breathing
-

Exposure to extremely high levels of natural gas can cause loss of consciousness or even death!

When most people hear the word gas they automatically assume it is like gasoline, which you

put in your car. Natural gas on the other hand, unlike gasoline, contains no liquid or mass. It is odorless, shapeless and colorless so most times people don't realize it is even in the air until it's almost too late. Gas companies add the rotten egg odor just so the leak is easier detected.

Natural gas is considered a fossil fuel that is produced by organic materials in the earth which is compressed over time and most theories believe that the organic materials that make up the gas are animal and plant remains. It is compressed over time and it becomes a burnable fuel. Natural gas is highly flammable and is made up of 90% methane but is also made up of propane, butane, ethane and other gases.

We use natural gas for many things like cooking, drying clothes and it also provides heat and electricity to our homes. Most people take it for granted until they are faced with an emergency regarding a gas leak in or around their own homes. The average person does not realize how dangerous natural gas can be. Natural gas also contains one of the most deadly elements that are carbon monoxide.

We know that it is a huge problem finding right and honest trade's people including good plumber's and gas engineer's in London and even in the surrounding areas. Especially, during the "Current climate"- you don't want to spend money on something if you don't know if it will be worthwhile. Don't panic! A reliable family run company like us are here to change this. Advanced Professional Plumbing and Heating Services London is offering the benefits of the knowledge we have to give "YOU" the customer the right advice – this will result in you saving hundreds or even thousands of pounds in some cases. This is for your benefit. Try us - plumbing and heating services in family run style!
